

Assistive Technology Maker Workshop Agenda

Easterseals Iowa Assistive Technology Program will be welcoming a national AT treasure, Dr. Therese Wilkomm, to Iowa on August 30 and August 31st, to host an Assistive Technology Maker Workshop! This hands-on maker workshop will discuss, demonstrate, and provide opportunities to create AT devices that attendees will take home with them. This event will provide up to 8.5 CRC and Social Work CEUs!

August 30, 2022 10:00 AM - 4:30 PM

AT Solutions for the Workplace, demonstrating over 50 different solutions that may support employees in various styles of workspaces. From the rapid development of a work-jig to task restructuring examples, and the use of time and motion for Assistive Technology accommodations!

AT Solutions for Vision and Hearing, featuring over 30 solutions demonstrated including tactile overlays, contrasting coloration, object communication, magnification solutions, and much more!

AT Solutions for Independent Living, which will discuss more than 40 solutions that may maximize independence in the home and community!

August 31, 2022 10:00 AM - 3:00 PM

AT Solutions for Communication focusing on communication support for the home, community, school, and workplace, and demonstrating more than 30 solutions.

AT Solutions for Social Isolation, Recreation, and Self-Regulation, including demonstration of various solutions, materials, and commercially available supports will be provided along with a tour of the Assistive Technology Center (for in-person attendees)!
